The Premier Difference is Quality!

Premier Kites stands out as a leading authority in the world of kite craftsmanship for several compelling reasons. Our dedication to preserving the dwindling art of back-cut appliqué manufacturing sets us apart, embracing a meticulous process that infuses each kite with a unique touch of craftsmanship and visual impact. This technique creates a breathtaking stained glass effect in the sky, saturating the kite with rich, vivid colors like no other.

A Kite to Suit Every Taste

Collaborating with a diverse pool of artists, Premier Kites also offers a dazzling array of printed designs that are nothing short of spectacular, ensuring there's a kite to suit every taste. Our collection spans a vast range of themes and patterns, making Premier the leader in compelling choices compared to any other manufacturer in the marketplace.

Each Kite is Rigorously Tested

Our commitment to excellence goes beyond aesthetics—every Premier kite platform undergoes rigorous flight testing to guarantee it's not just a work of art, but also one of the finest flying kites in the world. When you choose a Premier Kite, you're not merely embracing a pastime, you're elevating it to an art form, where beauty and functionality converge to create a remarkable, awe-inspiring experience.

Premier's Coloring Kites are based on one of our most stable designs and feature bold themes that are enjoyable to color and beautiful to fly. Some designs include background colors that are already pre-printed so anxious artists can finish their masterpieces for fast flying fun. All kites feature long flowing tails that can also be custom colored. A set of eight crayons are provided; most markers will also work for coloring.

Please note, some of our 30" Diamonds/Large Easy Flyers come with Compact Packaging. This exciting feature allows a large kite to be folded down to a much smaller package for travel and shipping. Although the kites come to the dealer in a convenient small package, the carrying case also unfolds to a full size case so customers can pack the kite in the traditional size and therefore all that is needed for flying is a simple insertion of the cross strut.

See the  symbol that denotes Compact Packaging.

Please note, some of our 30" Diamonds/Large Easy Flyers come with Compact Packaging. This exciting feature allows a large kite to be folded down to a much smaller package for travel and shipping. Although the kites come to the dealer in a convenient small package, the carrying case also unfolds to a full size case so customers can pack the kite in the traditional size and therefore all that is needed for flying is a simple insertion of the cross strut.

See the  symbol that denotes Compact Packaging.

Zephyr Kites

Size (w x h)	64 x 165"/163 x 420 cm.
Wind Range	4-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Fabric case with color hang tags
Line	Includes 300' of 50# test line & winder

Premier's Zephyr kites feature bold and bright contemporary graphics on a large and well proven platform. The kite includes a versatile case that allows it to be fully broken down for travel or partially broken down on site. Big, stable and a true joy to fly, these kites can support many types of small windsocks, spinners and accessories on the line.

*44278, 44292, 44277, 44293 and 44275 do not feature Zephyr style compact packaging.

56" Flo-Tail Deltas

Size (w x h)	56 x 172.5"/142 x 438 cm.
Wind Range	6-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Vinyl case with color header
Line	Includes 300' of 50# test line & winder

The Flo-Tail design gives you all the superb light wind capability of a regular delta combined with rock steady stability in higher winds due to their long flowing tails. The tails are sewn from a special super-soft fabric that looks like flowing water when it connects with the wind. The 56" Flo-Tail sports a 12' tail and the 6.5' version has a 24' tail. With their long and impressive waving action, these beautiful kites can be seen for miles.

Wind Range	5-18 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Vinyl case with color header
Line	Includes 300' of 30# test line & winder

Expert kite builders know that adding fringes or tails to the trailing edge of delta kites improves the stability of this very popular platform. The Premier 56" Streamer Delta has an impressive wind range, making it an excellent choice for either inland or beach flying. The classic retro graphics look great in the sky with the beautiful streamers dancing in the wind. Put your rainbow in the sky!

11' Deltas

11' Deltas

Size (w x h)	132 x 65" / 335 x 165 cm.
Wind Range	5-20 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Fabric case with color hang tags
Line	Recommended 150# test line

11' Deltas feature high quality old school detailing that will give you years of flying enjoyment. Extended cross strut pockets, forward-sleeved spine placement, and multiple reinforcements make these kites second to none for large delta kites. The kite has three accessory loops that can handle almost any towing option, including our big 100' Tube and Transition Tails.

The Apollo is a large full size delta wing sport kite that is perfect for the beginner who wants to start out with a lot of pull and power! Easy to control and excellent for team flying, the Apollo features a 100% tubular carbon frame at a more affordable price than any similar size kite with a carbon frame. The included high quality low-stretch line completes this great package that will fly in light inland breezes as well as stronger beach winds.

Rocket HP

Size (w x h)	69 x 36"/175 x 92 cm.
Wind Range	8-18 mph
Fabric	Polyester
Frame	Fiberglass
Packaging	Deluxe breakdown bag that fold to 33" for travel or 51" for in between flying sessions
Line	Includes 80' of low stretch 100# polyester line with flying straps

The Rocket HP is an advanced entry level sport kite that features a large 70" wingspan, 100% tubular carbon framing and high quality low-stretch ying line. The kite easily breaks down for compact storage and travel. The included deluxe case is designed for both large and short disassembly.

Widow Pro Classic

Size (w x h)	95 x 39"/241.3 x 99 cm.
Wind Range	4-20 mph
Fabric	Polyester rip-stop
Frame	Sky Shark wrapped carbon p200/p300
Weight	325 grams/11.5 ounces
Packaging	Deluxe sport kite case
Line	Includes 80' of 150# test spectra line with winder and straps

The Widow Pro Classic has the newest technological updates in sport kites today. Why the Classic? It is still based on the original design and original graphic. The Widow Pro Classic still has a bit of the old school feel that is extremely precise and yet easy for the average person to learn any of the new tricks as you advance in your flying. The Widow Pro Classic has great balance and uses the latest in Sky Shark wrapped carbon tubes. The redesigned nose & bridle has taken this kite to the next level and makes it so much fun to fly. Designed by Jon Trennepohl and developed in collaboration with Devin Cobleigh-Morrison.

Widow Pro Classic Ultra Lite

Size (w x h)	95 x 39"/241.3 x 99 cm.
Wind Range	2-12 mph
Fabric	Polyester rip-stop
Frame	Sky Shark wrapped carbon p90/p200
Weight	275 grams/9.7oz
Packaging	Deluxe sport kite case
Line	Includes 80' of 100# test spectra line with winder and straps

The same design and updates as the new Widow Pro Classic but with lighter materials. We have created an unbelievable kite for low to midrange wind. By the use of new sail cloth and lighter Sky Shark wrapped carbon tubes this allows the kite to fly in lower winds. For a low wind kite, the performance is still there for doing all the latest tricks. This kite will make you look like a Pro in light winds. Designed by Jon Trennepohl and developed in collaboration with Devin Cobleigh-Morrison.

Speedy Winders

The Speedy Winder is an excellent reel device especially made for kite flying and includes some very useful features. Molded from high-impact ABS plastic, these reels have built-in ball bearing steel raceways for smooth low-friction operation. A pivoting heavy gauge steel line guide helps keep retrievals swift and tangle-free. Comfortable grip and large handle are a joy to use and an integrated dead bolt locking mechanism allows for relaxed and secure parking at any altitude.

Colors of Speedy Winders may vary from those shown.

Blank Yo-Yo Winders

6' LED Tail Lights

What a bright idea! Premier now offers a simple lighting kit that will work on almost all sizes of kites. Our Tail Lights are light enough to install on many entry level Deltas, Parafoils and even Sport Kites. They also look great in pairs tied to the wingtip streamers of Easy Flyers. With 17 bright LED lights embedded in a glistening silver sheer fabric, they are both functional as a stabilizing device and spectacular at night. Takes common CR2032 batteries with a burn time of over 30 hours continuous use.
